

TRANSFER OF CREDITS POLICY

The transfer of credits within the Advanced American Program For Graduates is performed in accordance with the ECFMG guidelines on the basis of the following conditions:

- Matching number of credits;
- Corresponding form of the course (lecture/lab/seminar);
- Course content verification;
- Credits can only be transferred from an IMED-listed medical school;
- The courses for which credits are transferred must be completed within the appropriate time frame.

The deadline for exemption requests is 7 days before each semester begins. The requests supported with any necessary supplementary documentation should be e-mailed to appropriate registrars or submitted at the Front Desk for processing.

Each student receives a written Dean's decision including relevant justification.
